Enzyme, Jest, TestCafe

Concepts

Responsiveness and Accessibility,
Performance, Agile,

Familiar with

TypeScript, Svelte, AWS

EDUCATION

NOVEMBER 2015 – MARCH 2017

Courses in web dev

Coursera, Codecademy,
FreeCodeCamp, Udemy

2004 - 2009

Bachelor of Financial management

Skopje, Macedonia

ABOUT ME

A self-taught frontend developer with 3+ years of work experience. Proficient in the use of JavaScript and modern JS libraries such as React and Vue. I develop web features that are visually beautiful and technically performant. I love writing tests, bug hunting, ensuring responsiveness and improving the performance of applications. I am a constant learner, focused coder and a valued team member.

EXPERIENCE

2020 AUGUST – CURRENT

Frontend developer @ jayway.com

Industry: Consulting

Product: Web application for prediction of failures on train tracks for a client in the real transportation industry

Tech: **Vue.js**

Tasks:

- ❑ Created map views of rails, rail objects and rail alarms using MapBox
- ❑ Created page templates, menus, tables, image cards, dropdowns, modals, forms and many other 'standard' web elements
- ❑ Discussed technical implementation of the design with the client/UI designer/backend as well as and fast mocking of the possible solutions.

2017 MARCH – 2020 AUGUST

Frontend developer @ svenskaspel.se

Industry: Sports & Gambling

Product: CMS web application used to manage the content on the company's web platforms.

Stack: **React.js+Redux**

Tasks:

- ❑ Developing new features: forms, image preview, timeline, schedule, drag 'n drop and many more
- ❑ Rewriting legacy code from Backbone to React
- ❑ Writing unit tests, functional (UI) and integration (API) tests

JANUARY 2017 – FEBRUARY 2017

Frontend developer @ competencer.com

Industry: Health & wellness

Stack: **Angular.js**

Developed a psychological evaluation test as part of the onboarding of new patients to their health platform.

MARCH 2017 – FEBRUARY 2017

Internships

Edqu.se: E-learning web app built in **Angular.js**. I did some limited development of web features as well as bug fixes. Focused on learning Angular.

Fundedbyme.com: Crowdfunding web app. I enhanced existing web features while learning HTML, CSS and vanilla JavaScript.

2010 – 2014

Financial Analyst

Skopje, Macedonia
